

## The Periodic Table of the Elements

# The Periodic Table of the Elements

The image displays a comprehensive periodic table of elements, color-coded by groups. A callout box highlights the properties of Hydrogen (H):

- Atomic Number: 1
- Symbol: H
- Atomic Mass: 1.008
- Element Name: Hydrogen
- Density: 0.09

The periodic table includes elements from Hydrogen (H) to Oganesson (Og), with Lanthanide and Actinide series shown at the bottom.
